

Homemade Slime Recipe

This is a quick and easy recipe! Only 3 main ingredients, experiment with different colors and glitter!

Slime Ingredients

- 8-ounce bottle of Elmer's white school glue
- 1 ½ - 2 Tablespoons contact saline solution, more as needed
- 1 Tablespoon baking soda
- Food Coloring and/or glitter (optional)

Directions

1. Add glue and food coloring to bowl and stir until combined. Then mix in baking soda
2. Add in saline solution. Start with 1/12 Tablespoon and mix until combined. If too sticky, add ½ Tablespoon more solution at a time. The more you add, the thicker it'll be. The less you add, the slimier it'll be.
3. Knead the slime. Using your hands, knead the slime until it holds together. It will be wet and goey at first, but just keep going until it all comes together.
4. Store the slime. You can store the slime in a container with a lid, or in a ziplock bag. It is best to play with it on a placemat.

Tips For Making Slime

1. Use plastic bowls and spoons to make clean up easier.
2. Get the color correct before adding the saline.
3. Can add extras like glitter or scented oils
4. This recipe makes about a cup of slime, You can double or triple the recipe depending on how many kids there are.
5. If you have long hair, make sure and put it up. If you do end up getting slime in your hair, rub some coconut oil or olive oil on top and comb it out.
