Sunscreen Regulations

Because of Department of Children, Youth and Families regulations, we are required to have paperwork and documentation of sunscreen and its application the same as for any medication.

If you want your child to have sunscreen applied at school, you will need to get a medication release form from the school office. Please note that sunscreen will only be applied after 11:00 am and in the afternoons, so you will need to sunscreen your child before they arrive at school in the morning.

Thanks for your help and support.
